Midwest Energy has opportunities for high school students. High school juniors can now apply for the 2025 Youth Tour in Washington, D.C. Two students will be selected. High school seniors may apply to win one of ten \$1,000 scholarships. There's no GPA requirement, and applying online is easy, at www.mwenergy.com/community.

Put more money into your pocket by switching to LED light bulbs. Using only a fraction of the electricity compared to incandescent light bulbs, LEDs can make a big impact on your energy bill. LEDs also last much longer than most incandescent or compact fluorescent bulbs, providing years of service. Consider switching today!

Natural gas is a safe and efficient way to heat your home, but it is important to know the signs of natural gas leaks. You may notice dead houseplants or a hissing sound near a gas line. If you ever smell that distinct rotten egg smell of gas, act fast! Leave the building immediately and contact 911. Then, call Midwest Energy at 1-800-222-3121.

An itemized accounting of all electric and gas charges appears on page two.

ELECTRIC KWH

GAS THERMS

These charts show a 12-month history of electric and/or natural gas usage, allowing you to quickly compare several months of usage.

If you're enrolled in these programs, it will indicate so here. If you'd like to be, just call us at 1-800-222-3121.

BILL DATE: 1/19/2025

SERVICE ADDRESS: 742 EVERGREEN TERR., HAYS

Electric Service									
A fixed monthly charge covering infrastructure costs like transformers, admin costs, compliance, billing, etc									
Rate	Meter Number	Previous Read	Current Read	Number Days	Previous Reading	Current Reading	Meter Multiplier	kWh Used	Billing Demand
RES	2000002836	12/16/2024	1/16/2025	31	57302	57922	1	620	8

Electric Customer Charge									\$28.00
Electric Energy Charge									\$33.04
Demand Charge									\$16.00
ECA per kWh									\$6.20 CR
Transmission Delivery Charge									\$10.94
Total Electric - Residential									\$81.78

Energy Cost Adjustment is a variable cost based on the price of fuel used to generate electricity. It varies each quarter.

A variable charge based on the volume of natural gas used multiplied by the wholesale cost of natural gas.

A variable charge based on the volume of natural gas used multiplied by the cost of upstream transportation of natural gas to the delivery system.

A variable cost that covers the cost of electricity, per kilowatt hour of electricity consumed. $\$33.04/620 = 5.3¢$ per kWh.

A variable cost measured in kilowatts, based on the intensity at which electricity is used at a given time.

The TDC is a variable cost, and is your share of maintaining the transmission network based on kWh used this period

Gas Service								
Rate	Meter Number	Previous Read	Current Read	Number Days	Previous Reading	Current Reading	Therm Factor	Therms Used
GRES	10029419	12/16/2024	1/16/2025	31	8860	8970	0.8905	98

Gas Customer Delivery Charge									\$19.00
Gas Delivery Charge									\$19.53
Cost of Gas Commodity				per Therm		\$0.16663			\$16.33
Gas Capacity Delivery Charge				per Therm		\$0.12633			\$12.38
Gas Cost of Delivery Rider									\$1.74
Total Gas - Residential									\$68.98

A fixed charge covering metering, admin costs, compliance, etc.

A variable charge covering distribution of gas and maint. of gas mains & pipes

Charge that adjusts annually to help recover all infrastructure costs and safety expenses

Tax

Franchise Fee									\$3.48
County Tax									\$1.58
Total Taxes									\$5.06

Franchise fees are determined by city governments where we serve, and range from 1-5%; we collect these fees (and any applicable city/county/state tax) and pass them directly to the governments where you live
